## Introducing Sensity® 2

Light-adaptive lenses – almost 2x as fast in fade back time, compared to first generation Sensity®.

### Sense the difference

- Fade back speed improved compared to first generation Sensity
- Improved lens performance. Faster response no matter the climate or season
- **Stabilight Technology:** consistent performance and UV protection in a variety of climate and light conditions\*
- **Precision Technology:** microscopically accurate spin-coating process for superior adhesion

### Features

- Best balance of fade back speed and darkness for most patients
- Darkens to a dark category 3 sun tint
- Extremely clear indoors
- Intense, natural colour options
- Reduces glare when activated
- 100% protection against UV rays
- Blue light protection indoors and outdoors\*\*

### Available colours

Silver Grey

Bronze Brown

Emerald Green

Supporting Visionaries like you to build the best relationship with your patients, enabling you to grow and differentiate your practice. With a vision of succeeding together through care, knowledge and foresight.

- Remarkable combinations to fit your customer preferences
- Quality lenses and excellent service

\*Based on internal and external photochromic activation & deactivation measurements taken at different temperature levels.

\*\*Based on internal testing of average light transmission between 381nm-500nm compared to standard clear lens.
